

**workshop: making zines to promote youth sexual rights  
saturday July 28th  
4pm - 8pm @cnyc**

**Did you know that sexual rights are part of your Human Rights? Some of them include:**

- The right to participate in sexual activity
- The right to sexual expression and pleasure
- The right to sexual and reproductive self-determination
- The right to self-definition of sexual identity
- The right to self-expression (i.e., social recognition) of one's sexual identity
- The right to develop diverse sexual identities in an unhindered manner
- The right to consent to sexual practices in personal relationships
- The right to freely choose one's sexual partners

**At Next Up and CNYC we believe on the rights of all youth to experience a safe, healthy, fun and empowering sex life, whatever that might look for YOU. We believe in youth-centered approaches to sexual education, so that YOU can make informed decisions while navigating sexual feelings, relationships and experiences. In this workshop we will create and collaboratively edit content about what do sexual rights mean to us, make a fanzine to be sent to other youth groups in the province as a resource, and to invite them to create and exchange their own zines.**
